2020 Fenchelberg Riesling VDP.GG Versteigerungswine (auction wine)

"What makes this wine so unique is its balance and its complexity. Layed-back but in him slumbers a Riesling of extraordinary class. Supported by finesse ,spiciness and admirable elegance. Rooted in the "Roter Hang"! Sublime!

- Gerhard Retter(sommelier, Maître, restaurant owner)

The FENCHELBERG is positioned right on the border between the ROTHENBERG and PETTENTHAL vineyards and symbolises their linking element. In this vineyard natural spring water comes to the surface, a real rarity in the otherwise very dry "Roter Hang". These wells have been blocked by the "Flurbereinigung" (land consolidation) decades ago but now have found their way back and ensure a steady water supply for the vines. FENCHELBERG draws slightly back from the main flank of the hillside and creates an early-shaded amphitheatre-like setting. This special parcel is hedged by trees and even reed, which allows the grapes a slow ripening in a well-shaded surrounding. The grapes for the first vintage of FENCHELBERG VDP.GG have been hand selected two weeks after the end of our regular harvest.

Since our family works in the ROTHENBERG the FENCHELBERG has always played an important role in our top wines. It was the FENCHELBERG parcel where my parents harvested the berries for the TBA which received 3 times the perfect 100 points score by the Wine Spectator. With the warmer climate and the absence of noble rot due to the change in climate we realised that this parcel also offers us the chance to create high end dry wines of a very unique character: Cooler than the ROTHENBERG, spicier than the PETTENTHAL - FENCHELBERG VDP.GG !
